Returning to headlines for a good reason is the highly acclaimed beatmaker and sound engineer Chee. Putting the whole music industry on notice, the South African producer delivered 'TURN UP' via Zeds Dead's Deadbeats imprint this past weekend. Picking up exactly where he last left off, Chee's sound and style has triggered a movement within the bass music realm. The best thing about it is that it doesn't end here. Stay tuned for his forthcoming EP Paralysis Analysis out on February 26th.

### 'Turn Up'

Treating fans to a masterclass of low frequencies, 'TURN UP' showcases Chee at his very best. With an EP on the way, fans can get a preview of what is to come. Embellished with psychedelia, dark soundscapes, and spitfire transitions, 'Turn Up' reaches another level. Using his dexterity of creativity and innovation, this track throws Chee in the spotlight once again.

#### From the artist:

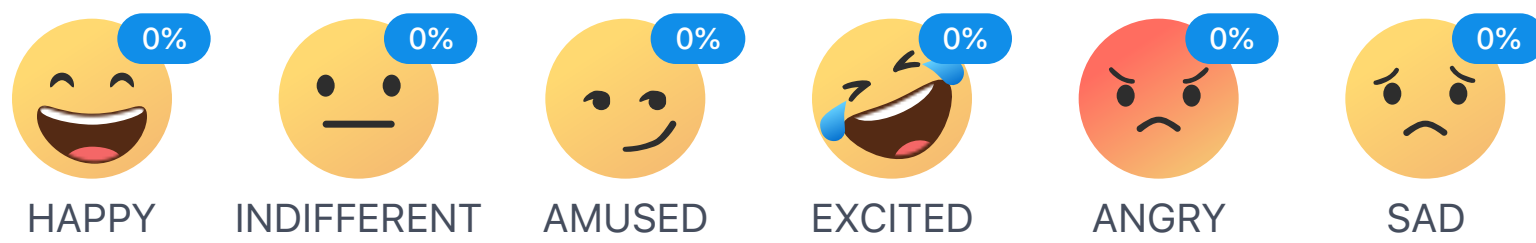

"I was elated to have my good friend African Ginger work on the art for Turn Up and later have the opportunity to work with him on the final EP art. I wanted the recurring theme to be a feeling of restraint & the need to escape, but partially being paralyzed by one's mind. The process of overanalyzing, causing one to freeze and be a prisoner of their own thoughts. I think a lot of people can relate to that feeling, especially after this last year, and I feel the art does the perfect job portraying that internal conflict a lot of us face daily." - Chee

### About Chee

After only a few years of honing his craft, CHEE erupted into the international bass and experimental music scene. Once his music began circulating, his sonic innovation and advanced production skills quickly earned him the attention of many top tiers acts, gaining him support from Noisia, Culprate, Amon Tobin, Mat Zo, and G Jones. There are no limits for this young artist, and his creativity thrives through his sound design.
