

Delightful Sage Garden Bat Mitzvah

Bat mitzvah girl Lily is a ballet dancer, a kind soul and a lover of all things floral. We knew the most important elements for her would be a dance floor, lots of flowers and dainty touches. This was beautifully unveiled in a purple and sage themed garden on a drizzly afternoon at the Garland Hotel.

The adults were seated at intimate round tables covered in crisp white linens that let the rest of the table setting shine; a mix of tall and low floral centerpieces, purple goblets, twinkling purple candles, and butterfly bread plates.

The kids had their own dedicated area, appropriately named "Lily's Pad," which featured communal tables for all of Lily's friends to move about and mingle. These long tables were adorned with a gorgeous purple and sage floral linen, green water goblets, draped purple napkins and floating purple candles. The lush floral arrangements scattered down the center were the perfect way to surround Lily with her favorite thing - flowers!

Lily's theme was kept throughout each detail from the decorated menus to the stunning invitations which were absolutely loved by the attendees. As well as, on the signature cocktails list which added a fun and unique touch.

Shimmering in an elegant 3D display was her name in resin filled with dried flowers, next to candles dedicated to loved ones; each coming up to light theirs. It was a touching moment during a fun-filled celebration.

The celebrations included henna designing, flower-crown making with an actual florist onsite who made individual crowns from flowers guests handpicked, customized sweatshirts, a classy lounge area and of course, lots of dancing.

Lily got to showcase her ballet training on her very own custom dance floor which kicked off a fun-filled evening. Friends and family really tore it up on this dance floor and we loved being a part of the exciting energy!
