Hereva News

Welcome Aditi Nasalature

Please help us welcome the latest addition to our Hereva Family! Aditi Nasalature will be our new COOP APM.

Our Holiday Celebration

In December we all got together for a Holiday Dinner at Sulmona Restaurant in Cambridge. The food was delicious, and the conversation was, as always, sparkling. Unfortunately, several of our teammates couldn't join us because of Covid concerns. Here's to hoping we are done with the pandemic by this time next year.

Our Company Culture

Project Spotlight: Nubian Ascends

It's very exciting to transform a parking lot into a unique and vibrant addition to the community, and that's exactly what Nubian Ascends Partners plan to do.

They have chosen Hereva to be their OPM on this 389,279 GSF project. We are excited to be working with the Partners and we know this project, once completed, is sure to have a lasting, positive impact on the area.

The mixed-use space will include:

- A Life Science / Pharma/ Medical / Technology Institute which will include a Life Science Training Center
- Culinary Hall with food from around the world.
- Retail Commerce Space
- Artist's Exhibit, Studio and Housing Spaces
- Open-air Green Space
