#### **What it does:**

The follow up to the original bestselling Naked palette, this stunning second edition proves that neutral is anything but boring. Showcasing a dozen completely different shades than the first bronze-based collection, it includes a stunning range from pale and deep, to matte and sparkly. You'll achieve a host of new neutral looks, smoky dramatic eyes, and everything in between. The palette also includes a double-ended, cruelty-free Good Karma Shadow/Crease Brush (available only in this palette).
