

No great design was ever created from just sitting around, waiting for it to happen. Whether it's a legendary Mustang car, a timeless Cobra shirt or a pair of authentic selvedge jeans; their great designs are the result of a relentless urge to challenge the status quo, and move things forward. They come from the courage to fearlessly push the envelope.

For men who recognize this spirit, we proudly present the Cast Iron Spring-Summer 2019 collection. Elegantly designed, timeless, and charismatic, this collection shows what you get when an effortlessly masculine image is met with a sophisticated look. High-quality fabrics emphasize this surprising, yet stylish symbiosis. Seasonal summer colours are bold and varied, presented in the classic polo package.

Your wildest dreams come when you're wide-awake

Denim

In our Cast Iron Premium Denim collection, no pair of jeans is 'just a pair of jeans'. We use only the best fabrics available. Part of our denim collection is made of high-quality fabrics from Candiani, an Italian denim mill known for sustainability and innovation. Made with their fabrics our jeans are soft, comfortable and flexible. We then hand wash and treat every single garment, to give it a distinctive, unpolished look.

The Cast Iron denim collection presents two fits: Riser slim and Cope tapered.

Riser

The Riser is a slim-fit denim; regular at the waist, slim at the thigh and slim down the leg. It's cut to offer modern men a slim fit without losing comfort.

Cope

The Cope denim has a tapered fit; regular at the waist, loose at the thigh and slim down the leg. This ensures a comfortable fit on the hip and narrows from the knee down, creating the classic carrot silhouette.

Difficult roads often lead to beautiful destinations

Doing it differently

Our outerwear collection is all about distinctive details, designed and constructed the Cast Iron way. Have a look at our car coat and parka to see what we mean: their distinctive pocket shapes and innovative construction methods effortlessly combine functionality with comfort. The use of quality materials, like viscose and mercerized cotton further emphasize the clash between a denim look and a more dressed-up image.

Cast Iron Cobra Shirt: timeless essential

Don't ask who's going to let you; ask who's going to stop you

Homage to a legend

Classic car fans will instantly recognize the traditional racing stripes that give the Spring-Summer '19 collection its contemporary, sporty feel. Throughout the collection, you find this graphic concept in various details, prints and fabrics. Innovative rubber printing techniques are loosely inspired by the timeless concept of burning rubber. And we probably don't need to point out the checkered graphics as a respectful nod to the legendary Mustang grill.

Don't stop, keep going. Great things take time
