Get ready to save ducklings in this cute, challenging, and addictive arcade puzzler!

The story of *Pix the Cat* is simple. Players control the hero Pix as they save ducklings while navigating through maze-style stages.

Players have a limited amount of time to make it to the exit. The faster you are at rescuing ducklings the more points you earn. *Pix the Cat* has a continuity between levels, which helps players feel at home to this type of gameplay.

As I played through the game, I noticed that the controls were easy to learn but hard to master. I practised becoming familiar with the game mechanics and it was not frustrating.

By default players use the keyboard for movement but also have the option to use a game controller. In all honesty, if I had access to a game controller it would have made for a smoother progression.

Pix the Cat features four modes: Arcade, Laboratory, Nostalgia, and Multiplayer Arena. Arcade is available at the start, but the rest are unlocked after scoring a certain number of points.

This isn't the only thing that gives *Pix the Cat* a high replay value. Players can unlock achievements after meeting certain conditions. These achievements are added to the Mission Gallery for later viewing.

The game is designed with a lot of heart and there is never a dull moment.

The music in *Pix the Cat* is pleasing to the ears and motivates players to hurry along each maze.

Final Thoughts: *Pix the Cat* is a fun puzzler that makes the time fly by. I will revisit this game soon to beat my previous scores, and to also unlock the modes that I haven't yet
