HSDC provides high-quality dentistry in a comfortable and relaxing environment that promotes the well-being of our patients. We are a multidisciplinary care team of highly experienced dentists and specialists that aim to provide a comprehensive service that is not only committed to excellence but also dedicated to continuing education in the dentistry and aesthetics field.

Our highly skilled dentists only work with the most advanced dental technology to create a bespoke smile just for you so you can smile with confidence for years to come. We offer a range of dental services including cosmetic dentistry, smile makeovers, dental implants, teeth straightening, clear braces, teeth whitening and veneers. Whether you're looking for cosmetic treatments or restorative work, it's all here. Our promise is to listen to our patients and prioritise their health and well-being from both a functional and aesthetic standpoint.

HSDC also specialises in facial aesthetic treatments that are natural and beautiful - we are sincerely committed to delivering tailor-made results you will love. Using the latest techniques and products in the industry, we offer several facial rejuvenation treatments catered to your individual needs from dermal and lip fillers to wrinkle reduction treatments and micro-needling.

During consultations, we conduct a comprehensive assessment of each patient's lifestyle, skin type and facial features to provide natural results that rejuvenate the face and avoid the overdone look. Our goal is to involve you in every decision made about the health and appearance of your smile and aesthetic appearance. We make sure that patients fully understand the treatment process so that they can make an informed and knowledgeable decision about their treatment.
