

Mission

- To make freshly cooked homely dishes and authentic cuisines accessible to people living in any part of the country, at pocket friendly rates
- To create a platform that allows chefs, housewives and aspiring culinary students to work independently and reach new heights

Vision

- To create an ecosystem where:
 - Chefs can live life on their own terms, and gain recognition and respect for their culinary skills that they truly deserve
 - Housewives can start earning for their livelihood (become aatmanirbhar) right from the comfort of their home
 - Youngsters won't have to worry about jobs/ placements... they can easily pursue their passion (for cooking) and create a career out of it straightaway
- To create a platform which provides employment opportunities to millions of people (as chefs, delivery partners, website/ app development and management)

About Us

ChefLab

India's first Chef cloud platform

What's ChefLab ?

Not in the mood to cook for your family tonight ?

Unsatisfied with the food in your office canteen ?

Tired of having boring tasteless food in your hostel everyday ?

If you can relate to any of these situations, it's time you check it out !

ChefLab – India's first chef cloud platform... a digital platform that unites experienced chefs, housewives and culinary students residing in your city, capable of serving you freshly cooked, pocket friendly homely food throughout the day.

Through this very platform we desire to empower chefs to work freely and be their own boss. For millions of housewives across the country, we've created a space that allows them cook and earn from home itself. Similarly, aspiring youngsters can convert their passion to a worthy profession anytime they want.

Finally, its our delivery partners who get your dish delivered right at your doorstep, ASAP !
