ABOUT US

Don't you think a vicious atmosphere of intolerance has been created in our country in these last few years ?

Aren't you concerned where our society is currently heading ?

Don't you feel its the duty of a rightful citizen or a political party to change the mindset of people and work towards a better future ?

If you think these questions really make sense, you are at the right place for sure !!

Secular Social Sena is our Digital Media marketing agency working across India. Since its inception, our intention was crystal clear. We have had a strong resolve to spread awareness about the concept of ' secularism ' or ' dharmanirpekshata ', among the masses... What it means... And how it can be used to create a better society. We are always ready to support and promote any Individual, Politician, Political Party, Organization or Force that is truly secular in nature.

With an ideology considering a person's religion to be a mere personal choice and not a parameter for existence, we are hopeful of creating an impact on the nation's future.
