NATURAL. ARTISAN. TIMELESS.

At Sola Studio, we believe the **best spaces tell a story** — of nature, craftsmanship, and conscious living. Every piece is made by hand using sustainably sourced materials and natural finishes, designed to last for generations.

SOLA STUDIO

ART OF LIVING

THE ART OF THE EVERYDAY

Our collections blend form and function with warmth and soul. From sculpted dining tables to minimalist shelving, each item is made with intention—**meant to be lived with, not just looked at.**

Sola furniture is alive—crafted with care, finished with oils, shaped by seasons, light, and touch.

- Sustainably harvested wood
- Natural oils & finishes
- Locally made in Northern California

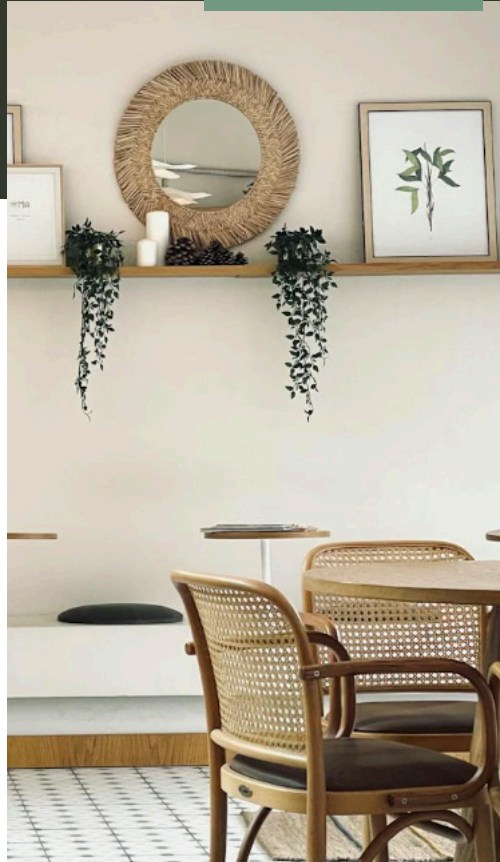

THE SHAPE OF INTENTION

No two trees are alike.

No two pieces should be.

We honor the curve, the split, the spirit—letting the material speak first, and the tools follow second.

This is slow work, and that's the point.

LET'S MAKE SOMETHING BEAUTIFUL

Let's create, slowly and with care. Bring us your sketches, your spaces, your vision for how a room should feel. We'll listen, gather, and shape something honest, rooted, and wholly yours. **Made by hand. Made for you.**
