Subject: Tani Hair Oil Purchase

CC: Mrs. Bizunesh Beyene, General Manager

Dear Ms Nina

This letter is to inform you that Tani Hair Oil is a must for your client's hair.

As a salon owner, the quality of products is the most important thing to have in order to keep clients amazed and happy with their hair results. Tani Hair Oil will provide those results. Tani Hair Oil keeps hair strong, healthy, and shiny, and it supports a healthy scalp as well. Even though heat is used on hair, it will not damage it severely if applied before the process. It is easy and available to obtain at any time and any day online. If you are curious to learn more about our Tani Hair Oil, we are located in Hoffman Estates. Samples are available for customers to try before purchasing. Our products reasonably priced: clients can purchase them directly from you for significant profit. We guarantee that we have never compromised our quality standards. In addition, Tani Hair Oil is not only the best in the market, but it's also known as a fast-growing product in America.

Our hair oil is handed down from generation to generation. It is a trusted item that has given great results for many clients. Our hair oil will keep clients coming back to you! And even new curious clients who want good hair will come to see for themselves.

Sincerely,

Nate Dan, Sales Manager
