MICROMAIN

Hello there,

Want to get *more* out of your maintenance management software? Now you can — for *less*. We value you as a longtime user of MicroMain Classic. That's why we'd like you to meet our new platform, MicroMain Global. This user-friendly, cloud-based software lets you access your data from anywhere using the MicroMain Mobile Technician mobile app and reduce time spent training staff to use the software — all while paying less.

That's right. Subscriptions for MicroMain Global start at $89 per admin license or $39 per technician license. Since your data is stored in the cloud, it costs a lot less to maintain in the long-term.* Say goodbye to licensing costs, paying for software updates and having to hire an IT admin.

Start your free trial

*Initial costs for the first year of implementation may be slightly higher, but you can expect your costs to go down in Year 2. Ask one of our implementation specialists for pricing details.

Here's what you'll get when you switch to Global:

- No Wifi? No problem. Work offline with our app
- Customize the platform according to your country, industry, department and more

- Get real-time notifications to track progress and results on all maintenance work

What do I need to do to get this deal?

- Schedule a call with a software implementation specialist
- Sit back and relax. We'll import your data for you.
- Participate in three days of training (we'll come train your staff onsite or remote)
- Go live!

Schedule a call with us

Cheers,
