About DogVinci

DogVinci was adopted by fine artist Yvonne Dagger. In the summer of 2015, while in her studio, Dagger sat faithfully and watched while Yvonne worked. One day, Yvonne asked Dagger if he wanted to paint. His tail began to wag. Yvonne placed a brush in his mouth and with one simple command, "paint," Dagger immediately went to work creating amazing artwork—where each and every stroke of paint on the canvas is placed by Dagger himself. Now when his red beret goes on, he knows it's time to paint another masterpiece.

[Dagger II aka DogVinci](#) has sold more than 400 paintings which has resulted in over \$45,000 being donated to animal & people related charities and causes.
