

# SOILWORKS®

Soil Stabilization & Dust Control

September 25, 2017

To Whom It May Concern,

As the Marketing Manager for Soilworks, LLC, I would like to offer my recommendation of Chris Collora based on the projects he was an integral part of for us. Below is a short list of projects that he successfully completed for us:

- Press Release – San Simon, AZ project update
- Blog Post – Holiday
- Blog Post – BMX
- Video – Field application of Durasoil
- Video – Field application of Gorilla-Snot
- Social Media updates for our Facebook, Instagram, Google+ and YouTube channels

Chris was very thorough and professional on all our projects. He was timely in his delivery of not only the written projects, but also our video pieces. Unfortunately, we didn't have a significant amount of projects for him to work on as we were in the middle of budget cuts during his tenure. It was a pleasure working with him in the office and in the field.

I think you will find his professional demeanor an asset for your company.

Respectfully Submitted
