Water Treatment Solutions

Salcon provides end-to-end water solutions from raw water management, design, construction, commissioning, concession, operation and maintenance of water treatment facilities including downstream activities ie non-revenue water reduction, customer service, billings and collection. This Division has a portfolio of over 550 successful projects under its belt in the last 40 years in Malaysia, China, India, Sri Lanka, Vietnam and Thailand.

As a total water solutions provider, Salcon provides integrated products and services to meet the needs of the expanding water production and distribution industry.

Wastewater Treatment Solutions

Untreated sewage has serious impacts on the quality of an environment and on the health of people. At Salcon, we are committed to protect and conserve the environment to ensure a sustainable future for our coming generations.

We have successfully completed more than 450 wastewater projects and provide turnkey and specialist engineering services for the design, supply, construction, installation, testing and commissioning of various sewage treatment systems. Throughout the years, we have delivered customer value through optimization of the wastewater treatment process solutions and reduction of operating costs to meet our customer needs.

Creating
Value
Through
Diversity

Salcon diversified into the technology, transportation services and property development in recent years to broaden its income stream to ensure sustainable returns to its shareholders.

Technology Services

Salcon via its investment in Volksbahn Technologies Sdn Bhd (VBT) aims to provide smart city solutions in partnership with Prasarana Group of companies. The company serves as a next generation telco carrier and neutral host, provides operating shared common antenna infrastructure along high-density high-traffic public commuter transport networks and integrated developments, offers ultra low latency Mobile Backhaul services as well as Metro Ethernet for carrier and enterprise markets.

Transportation Services

Salcon's subsidiary Eco-Coach & Tours (M) Sdn Bhd provides transport services to multinational companies such as Intel, Western Digital Media and Paramit in the northern region of Malaysia.

Property Development

Niche property developer.
