

Land of Prosperity

Stone materials and unique honeycomb wall design were used to accentuate product image and emphasize exclusive technology of the original cycle steam sauna cabin which developed from Japan 708 mineral and

anion. The eye-catching ceiling logo and the wall shows ticker symbol of the group symbolized company development across countries and enhanced corporate identity.

In the CEO office, wooden element is utilized to give a mild and warm texture.

The plant partitions and iron grating visually enlarge the spaces and also divide the open-concept space, improving company organizational structure and strengthening team cohesion.

In the president's office, the gorgeous peony flower patterns on the wall symbolizes prosperity and luxury and means the brand will last forever. The national treasure-level cypress desk represents brand uniqueness. On another wall, the world map implies the corporate vision that aims to sell best Taiwan products all over the world.

In the CEO office, wooden element is utilized to give a mild and warm texture. Marble, stone tile, aluminum-steel alloy, and stainless steel were utilized to create cohesive and upscale color schemes. Besides, white oak, white ash wood, and PVC flooring with coffee color were used to bring a warm ambience.

To combine the brand image and interior design, the designer created modern and luxury style by utilizing yellow and gold colors to bring bright ambience and delicate texture to the interior. By deeply understanding the brand, the designer combined the brand image and design to reinterpret the leadership story through spaces.
