DENTIFLEX
PLAQUE CONTROL SYSTEM
FOR
kids

FOR AGES 3 AND UP

Dual-Action Brush Motion uses short, horizontal strokes to loosen plaque & long, vertical strokes to sweep plaque away

Child-Sized Bristles reach chewing and biting surfaces of back teeth where cavities can develop first

Pressure Response System flexes brush head back to protect your child's gums if they brush too hard

- Works effectively with any toothpaste
- Additional Child Brush Heads Available--details inside
- Full One Year Warranty

DENTIFLEX
PLAQUE CONTROL SYSTEM
FOR
kids

FOR AGES 3 AND UP

When your child has brushed for the optimum time, the Red 2-Minute Timer Light flashes. Green Charge Indicator Light flashes during charging

Contoured, two-tone bristles clean teeth two ways: shorter, blue bristles are stronger on teeth to fight plaque build-up; longer, white bristles clean deeper between teeth

Helps your child develop good brushing habits that will last a lifetime

- **Works effectively with any toothpaste**
- **Additional Child Brush Heads Available--details inside**
- **Full One Year Warranty**
