EIGHT CRAZY NIGHTS? UNLIKELY.

Husqvarna makes snow removal quick and easy.

No one wants to spend hours in the cold, shoveling snow out of the driveway and off the sidewalk so they can get to work... especially not after working a 9-to-5 with a long commute on top of it. It's exhausting.

Husqvarna snowblowers turn nights upon nights of shoveling into a task that can be done in under an hour! And they make it easier with:

- ***Heated handles*** for your comfort
- A reliable ***starter system*** in cold weather
- A ***cleated track-drive*** system to reduce stopping and starting
- Cast iron gear box and impeller, each with a ***10-Year Limited Warranty***

So don't spend eight crazy nights out there shoveling snow. Finish the job faster with a Husqvarna snowblower with bright LED headlights. Then, head inside for a *real* Festival of Lights!

NO MORE MISFIT TOYS.

We use genuine Husqvarna parts!

Sure, the freshly fallen fluffy stuff is easy to clear. But snow that's been sitting for days? It can feel as dense as the clay in your favorite festive claymation.

Never fear — your Husqvarna can blow through it all the same. But to power your machinery to peak performance and clear snow quickly, you can't compromise on genuine Husqvarna snowblower parts.

So when your snowblower lacks *animation* — when it's stuck in *stop-motion* — come to our service department. Our technicians use OEM parts made to Husqvarna specifications, so there will never be a misfit.

More modern and effective than Yukon Cornelius' icepick, genuine blades and augers will make your Husqvarna a true snow-prospecting machine!

LAST CHRISTMAS, I GAVE YOU MY HUSQVARNA...

And the very next day, you snow-blew me away...

This motion picture doesn't need much to make it a classic. You and your driveway will do. Just *Wham!* into that snowdrift and let the blower do the rest.
