

Biology Vocabulary- DNA

On flashcards, write the word on one side and the definition on the other side.

Nucleic acid

Nucleotide

DNA

RNA

Double helix

Deoxyribose

ribose

Adenine

Guanine

Cytosine

Thymine

Uracil

DNA Replication

Transcription

Translation

Protein synthesis

Ribosome

mRNA

tRNA

rRNA

Mutation

Deletion(mutation)

Substitution(mutation)

Insertion(mutation)

Inversion(mutation)
