The worst mosquito and fly encounters occur while fishing. Mosquitoes are drawn to water, and if you spend enough time fishing, you'll develop a healthy aversion to these short-lived insects. The Thermacell's unique and portable MR300 emits a mosquito-repelling "zone of protection" of 15 feet around the device using EPA-approved technology. It won't work as well on windy days, but mosquitoes are rarely present on windy days. The device is powered by a battery and a replaceable fuel cell, and it is light and small enough to throw into a backpack. It is one of the thoughtful fisherman gift ideas.

When fishing, whether offshore, fly fishing, or bass fishing from shore, a good pair of pliers is essential. Cleaning fish isn't fun for most people who don't do it every day, but having good knives is the best way we've found to make it enjoyable and quick. Sharp knives designed for the job are the difference between mangled, wasted fish and clean fillets that easily come off the bone. Bubba's Multi-Flex system includes one ergonomic handle. All three blades share the same handle and the kit takes up less space and everything fits into the relatively small case. It is a great gift idea for the fisherman.

Cooked fillets will lift right off the skeleton with a fork, or he can pick bites right from the fish. The oversize 13-inch cast-iron pan from Michigan's Marquette Castings is one of the best. These forged-in-the-USA pans are hand-finished and pre-seasoned for a smoother seasoning and a more nonstick experience. Even when the fishing is done, you don't want the day to end. Tailgate grilling is a great way to justify staying in the parking lot for an extra hour or two, but most people won't be able to haul a full-sized grill. This is one of the best fisherman gift ideas. The PKGO from PK Grills is small enough to fit in the trunk of your car, but it expands into two grills (using the lid as a base) when you need double the surface area.
