

## Introduction

Choosing the best gift for mom is usually difficult—but in our experience, finding a good gift for dads (or any father-like figure) is notoriously difficult. He usually claims that he already has everything—or, worse, that he doesn't want anything. On the other hand, no gift in the world is worthy of all he has done for you. Your father is always there for you, from attending all of your Little League games to offering relationship advice.

But don't worry—you don't have to buy your father yet another boring tie that he might never wear. When looking out for 70<sup>th</sup> birthday gift ideas for dad, choose something he'll not only like but also use. If he enjoys cooking, it could be something practical (such as a new grill) or something unusual (like a DIY hot sauce kit). You could get him a game-changing massager or CBD muscle relaxer if he works long hours and could benefit from relaxation. Is he very active? Consider cool sneakers or high-tech headphones. And if he spends every Sunday glued to ESPN, a warm blanket might suffice. Oh, and these gifts are appropriate for any father—your own, your grandfather, or even your spouse (with a card signed by your kids, of course).

We've compiled a list of the best 70<sup>th</sup> birthday gift ideas for dad, including sentimental items and pampering treats for any new dad, as well as several Amazon best-sellers (you know, for last-minute gifting). Let's get started.
