With Teams Phone Mobile, seamlessly connect from anywhere across devices – with one business phone number.

To thrive in the new era of hybrid work, it's becoming increasingly important to deliver flexibility. But this doesn't mean "always on" work – it means "always empowered" work to accommodate all the ways we collaborate. Today's Canadian enterprises can drive productivity on the go, by simplifying and unifying business processes.

Now you can fully integrate calling capabilities into your broader collaboration platforms – across devices and Teams – to enable your team to increase efficiency and effectiveness, wherever they work.

Turn a call into a collaboration

Rogers Business is the world's first provider to bring native mobile experiences to Microsoft Teams with Teams Phone Mobile.

Building a hybrid-first organization means creating more unified and agile ways to work. With Teams Phone Mobile, simplify collaboration and productivity on the go and empower your teams to stay connected from anywhere. Now you can integrate mobile calling with Teams and move calls seamlessly across devices with one business phone number.

Streamline collaboration and productivity

Get the convenience of a single phone number for mobile, desktop and Teams devices. Make and receive calls natively on your mobile phone or transfer them into Teams for collaboration on the go. Or seamlessly turn your phone call into a presentation. Plus, access unified call history, voicemail and "In a call" status.

Save money and time

Reduce capital costs with a cloud-based solution. Eliminate redundant platforms and expensive legacy phone systems, devices, support and maintenance. Get up and running quickly with 1:1 setup, complete migration and configuration support.

Improve security and business continuity

Streamline device management with embedded security. Get corporate security, privacy and compliance across mobile devices. Plus, get better visibility and threat signaling with voice tied to user identity.

Increase employee happiness and performance

Create more flexibility for employees working from the office, home and everywhere in between. Simplify communication with one business number and enable your teams to do more from anywhere on their mobile devices.

Experience Teams Phone Mobile. Only with Rogers Business.

ACCORDIAN BROCHURE SIDE B

"Teams Phone Mobile is a seamless approach to quickly connect with each other. Regardless of where you are, you click a button and are talking to someone."

"We were spending \$28 per user per month on our previous voice solution. That included licenses, infrastructure management, and tier-three support. Now we are paying \$5 per user per month to our PSTN partner."

"With 73% of employees looking for dynamic work options, companies need to become more adaptive, connected and collaborative."

"Security is a huge benefit because identity is embedded in the solution. Previously we were looking at logs from different systems trying to analyze risk. Now it's all integrated."

"With 73% of employees looking for dynamic work options, companies need to become more adaptive, connected and collaborative."
