CREDIT SCORE

DETAILS	LINES
	<p>I'm 18 years old, and I have a credit score of 770.</p> <p>But... How did I do this?</p> <p>It's no secret that having a good credit score will open so many doors in life, especially in the United States.</p> <p>So, if you're a young person like me, you need to start thinking about your future, as credit scores are the key to getting loans to buy properties, open businesses, and more.</p> <p>So, this is how I got my perfect score.</p> <p>First, I got a secured credit card under my own name the day I turned 18. This means that I backed my card with a cash deposit.</p> <p>Then, I got my parents to make me an authorized user on their credit card, which means that I could benefit from their payment history and available credit.</p> <p>And last but not least: never miss a payment. As simple as that.</p> <p>Follow me for more advice on how to raise your credit score.</p>

BEAR MARKET

DETAILS	LINES
	<p>I'm NOT scared of the current bear market. In fact, I think it's actually better this way.</p> <p>Okay, hear me out.</p> <p>Some are extremely upset about the current bear market, where dozens of cryptocurrencies' prices fell down to their lowest point in years.</p> <p>Others were actually happy about this, but we're not here to talk about these assholes.</p> <p>But what if this is actually an opportunity for investors?</p> <p>Just think about it: every single crypto is cheaper. So, if you invest in trustworthy projects like Bitcoin or Ethereum and the price inevitably comes up, you'll get tons of money.</p> <p>Second, there's less competition than it was before, meaning that the market needs people to take these opportunities.</p> <p>And lastly, you can set long-term goals for your investments. Don't rush on investing in anything: you have plenty of time to study your next steps.</p> <p>Follow for more financial advice.</p>

DELETED MY TIKTOK

DETAILS	LINES
<p>Attach screenshots of your previous account, with close-up to the amount of followers, your most viewed video, comments, etc.</p>	<p>I used to average one million views a week, but I decided to delete my TikTok account.</p> <p>Having millions of followers would be a dream come true for some people... But I was uncomfortable.</p> <p>You see, when I started that account, I didn't have a niche content. One day I would be posting random comedy videos</p>

for bros...

And the next day, it'd be thirst traps. No, I won't be showing them here. Yes, I was getting millions of views, even though I published a video once a month.

Then I decided to post things that I actually liked... And there it was. 3 views per video. I realized that I wasn't being followed by the right people.

I pondered over my decision for a few days, and then I deleted everything. No more thirst traps.

I realized that being authentic in social media is 10 times better than faking it for the sake of clout.

So, if you're watching this video and wanna know more about financial and social media advice, you're more welcome to follow me.

But if you're looking for thirst traps... This is not the account for you.
