- More choices: Evolve wall cabinets, base cabinets, linen cabinets, vanity cabinets and utility cabinets come in four woodgrain and four solid color finishes.
- Coordinated end panels in each finish complete the inset appearance of this cabinetry and allow for easy finish changes later.

Evolve, the newest brand from Sauder Cabinetry, features fully-assembled, frameless, full access cabinets with slab doors and drawer fronts. All hinges are six-way adjustable and color matched molding and trim are available for a complete installation.

“We’ve been developing this new line for nearly two years and we’re excited to share it with the world,” said Jonathan Zublena, Vice President of Sauder Building Products. “Evolve cabinetry was created to meet the rapidly shifting market preference for cleaner modern lines and more woodgrain finishes. It looks like something that costs significantly more than it does and it’s so well-built it will last for years.”

The launch of Evolve underscores Sauder Cabinetry's commitment to providing industry-leading solutions for builders and contractors seeking superior quality in their cabinetry choices.
