# Cut Carbon

Leading edge solutions that reduce carbon across a product's entire lifecycle:

- Broadest portfolio of low-embodied carbon solutions
- By focusing on embodied carbon, we can deliver solutions to minimize the overall project's impact
- Deeply committed to its own sustainability goals, Armstrong is constantly working to innovate and add new solutions

Minimize overall project environmental impact by selecting leading edge solutions from the broadest portfolio of low-embodied carbon ceiling and wall products that provide carbon reductions across a product's entire lifecycle.

The Sustain® portfolio makes selecting ceiling and wall solutions that meet sustainability criteria easier and less time consuming at scale. Solutions for every design goal, with easy-to-specify products that clearly communicate transparency and optimization information.
