Want to know what's unique about us?

The products are designed from premium quality material which makes you look graceful while wearing them and they are available at affordable prices. This might make you feel that our products aren't durable but you are mistaken. They are long-lasting because we chose the finest fabric to design our products. We don't compromise on the quality just for quantity.

We all know, when it comes to fashion, nobody can do it better than the French. They are effortless when it comes to deciding what to wear for which occasion. Whether it is an evening occasion or a morning event or just a daily look; you can always get some tips from a Parisian woman. Jac Cadeaux inculcates the same level of sophistication as a French woman.

You must be wondering who is behind this idea?

Claudia is the founder of Jac Cadeaux. The idea to bring French style to Australia stemmed from the time she spent 4 years in France. It was like each French woman was a beautifully painted canvas which was walking towards her. She witnessed their art of immaculate dressing and their day to day lifestyle that inspired her to introduce Australians to their unique, authentic and elegant style.

"Having lived there for 4 years, it created an eternal fascination and appreciation for beautiful French products," Claudia says while remembering her wonderful time in France.

The reason she decided on the name 'Jac Cadeaux' for her French-inspired product line is a story in itself!

Being a mom her inspiration for the name is none other than her daughter. She chose the initials of her two loving daughters –Ava and Juliette along with her name for naming her brand.

If the name is so inspired and creative you can only imagine how one of a kind her products will be.
