Cherry
Blueberry
Blackberry
Bilberry
Prune
Elderberry
Açaí berry

Origin: Deep in the Amazon rainforest grows the Brazilian açai berry, the crown jewel of all superfruits. Pronounced “ah-sah-EE,” the açai berry is rich in antioxidants, polyphenols, vitamins and minerals.*

Amazonian superfood: With unique wellness benefits, Brazilians have eaten açai berries for centuries.

Carefully processed: The prized açai pulp is flash-pasteurized to retain the flavor, color and nutrients.

Sustainable: Berries are harvested from the fronds of the açai palm annually, leaving the tree to replenish and grow, year after year.

PLANT-BASED GLUCOSAMINE

MonaVie Active contains one of the few plant-based sources of glucosamine in existence. Derived solely from corn, each serving of 2-fluid ounce of Active contains 750 mg of vegan-friendly glucosamine.

AÇAVIE COMPLEX

Available only in MonaVie Active, AçaVie Complex is a proprietary blend of açai **puree**, **pulp** and **powder**. Using only carefully sourced berries, each form of açai is meticulously reviewed and tested for quality.

Pulp: The fruit pulp is exclusively sourced from the *Euterpe oleracea* Mart. species of açai palm.

Puree: Only harvested açai that meets specific sweetness and acidity parameters is used.

Powder: Using Infidri™ light energy, the fruit’s water molecules evaporate leaving the flavor, color and nutritional molecules intact.

No artificial flavor, color or sweeteners
