

# Design Like a Pro

## ON SALE NOW

If you've ever wondered about the "rules" of design, you'll want this first-of-its-kind special issue. We'll show you how to creatively combine colors from all segments of the color wheel and explain basic design concepts like the rule of thirds. You'll also learn elements of different styles, from fun and cute to classy and elegant with everything in between. There are hundreds of project ideas using these design lessons so you can practice your newfound skill on cards, bags, tags, wraps, home décor and more.
