Pushing Beyond for Better Results

Getting your patients back to life again after a stroke, on the job injury, trauma or illness is the goal of DeKalb Medical's rehabilitation team.

Ranked in the top 5% of all U.S. hospitals for clinical excellence by HealthGrades® for two years in a row (2009-2010), DeKalb Medical at North Decatur can offer your patients unparalleled clinical quality and an opportunity to return to their regular lives as rapidly as possible.

Outstanding Care Teams

Delivering outstanding rehabilitation services begins with a staff experienced in evidence-based medicine and advanced technology and ends with *outcomes that exceed expectations*. As one of the most comprehensive rehabilitation programs in the state, DeKalb Medical offers expert care and evaluation for your patients who are recovering from orthopedic injuries, amputation, stroke, multiple traumas and a variety of medical and neurological conditions. From the hospital bedside to inpatient and outpatient care needs, we'll be with your

Experience the 5-Star Difference

As a hospital system that is defining the difference between adequate and exemplary care, DeKalb Medical can deliver the hands-on, compassionate care your patients deserve. **Ranked among the top 10% of hospitals nation-wide for overall orthopedic services in 2010 by HealthGrades**, your patients can reach their highest potential in a health care setting that also holds 5-Star ratings in critical care, total joint replacement, hip fracture repair and the treatment of sepsis.

"There is an ease of communication at DeKalb Medical that I don't see anywhere else. The staff is exceptionally attentive and I receive regular reports on my patients and discharge summaries."
