THE HELIX

**Be part of this permanent
display of recognition**

The Helix—an eye-catching display at Brigham and Women's Hospital—provides a special way to support the Brigham's commitment to uphold personalized care for every patient.

The installation boasts a large-scale, vibrant double-helix, symbolizing the common thread that unites us all: our DNA. Below the helix, more than 400 mirrors create a space for our Brigham community members to share their heartfelt messages.

With gratitude
for our doctors
and nurses

THE JONES FAMILY

Each mirror, reflecting a generous gift to the Brigham, can be inscribed with a personalized message of inspiration or to honor a loved one or caregiver.
