

## OUR STORY

What if we tell you that online classes are more fun and personalised than the traditional classroom learning you've known all these years?

One-to-one learning works. We've believed that from day one. But we also know that it would work better if it is accessible, affordable, and convenient for everyone. So that's what we've built—an easier way to connect students who are excited to learn with the experts that can teach them. With this, the aim is to try and change the way people think about education in the process.

We started GoKV with the idea of bringing a fresh perspective on education and finding innovative ways of teaching with the best educators to give students a winning edge. Our digital platform maintains the same level of classroom engagement in online classes and maybe much more than that.

We are also re-adjusting the learning methods to suit students' unique needs and provide tailor-made fun activity-based classes to students. We have always believed that alphabets are at the core of every learning process and fun is at the core of learning alphabets. We want to make education fun for every student in their learning phase because at this age, if a student loves to learn and associates learning with fun then that student will become a learner for life.

## ABOUT US

- At GoKV, we believe in the power of digitisation to help every student get personalized learning and 1:1 attention from India's best tutors.
- We believe in evolving the way of learning by combining top quality educators, fun activity-based learning and technology.
- With an aim to provide personalised online tuition, mentoring and coaching to students from Class K to 12, we focus on learning that is highly flexible and personalized according to each student's requirement.
- Our dream is to build a network where a student can connect with the best educator directly and learning can happen in a personalized way, anytime, anywhere.

## ABOUT US

- At GoKV, our mission is to help every student excel academically by helping them learn irrespective of their location or time schedule.
- In order to unleash the student's full potential, we nurture their academic dreams, helping them to pursue their academic interests with the best educators.
- We believe that every student has a right to reach their full potential. We also understand that each student is different. We engage with each student with an adaptive approach, fun activity based learning and personalized attention.
- We aim to make lifelong learners with the best instructors, live online sessions and 1:1 personalised attention.
