MARK43

The 21st century's public safety platform

Mark43 builds the world's leading public safety CAD, RMS, and analytics platform, and sets the industry standard for customer support and care.

MARK43 CAD   Computer-Aided Dispatch

Capabilities for

- **Call-Taking & Dispatch**
- **Field Response**

Highlighted Features

Bidirectional RMS Sync

View historical activity as soon as a person, location, or vehicle is identified by a dispatcher, and later autofill reports with CAD event information.

Embedded AVL Mapping

First responders and dispatchers alike can display GPS-tied units and events alongside Google Maps views and any other GIS data uploaded through our shapefile import wizard.

Live In-App Messenger

Reduce radio gridlock while increasing collaboration between dispatchers and responding units during an event.

Configurable Workspace

Reduce response times with a setup configured for how you and your agency work best, from the status queues on your monitor to the shortcuts on your keyboard.

MARK43 RMS Records Management System

Capabilities for

- **Report Writing**
- **Investigative Cases**
- **Property & Evidence**
- **Warrants**
- **Booking & Jail**
- **UCR Reporting**

Highlighted Features

Active Error Detection

Prevent duplicate and incomplete records with real-time validation of every collected data field.

Automatic UCR Coding

Reduce reporting error by mapping the appropriate federal, provincial, and local codes to the same data entry field, and automatically generate monthly stat reports within an integrated workspace.

Configurable Report Forms

Adapt to changing operational needs with flexible control of fields, codes, and validation rules.

Digital Content Management

Work with all of the facts at your disposal by linking records, documents, and multimedia from external systems to your agency's active reports and cases.

MARK43 ANALYTICS Data Analytics & Intelligence

Capabilities for

- **Crime Analysis**
- **Business & Operational Intelligence**
- **Data Lake Access & Storage**

Highlighted Features

Report Library

Populate pre-built analytics dashboards and reports with real-time data from dispatch, records, cases, and evidence.

Hands-On Explorer

Create custom visualizations and dashboards of real-time incident data, community crime, and agency operations using hundreds of dimensions and data fields.

"

The innovation, ease of use, user-customization, and 24/7/365 customer service is unparalleled. Mark43 is the future of policing.

- Sergeant, Placentia Police Department, CA
