

Mark43 for Canada

State-of-the-art platform hosted on secure infrastructure

As public safety evolves, so should technology. Canada's first responders need a flexible dispatch, records, and analytics platform to streamline operations, increase safety, and decrease downtime.

Canadian agencies partner with Mark43 for:

- **NPSnet-compliant**, secure cloud infrastructure
- Agency-configured, **province-wide data sharing**
- **Simplified configurability** at no additional cost
- Built-in **data sovereignty**
