

MARVIN COASTAL WINDOWS AND DOORS

Marvin's coastal windows and doors offer superior protection along with highly customizable designs ideal for any coastal home. Built to withstand harsh conditions, coastal windows and doors are Impact Zone Certified, UV resistant, and complete with durable hardware.

Thanks to their superior exterior cladding and finish and smart design, the coastal windows and doors in our Ultimate product line are as beautiful as they are strong. We're one of the few window manufacturers to use high-quality extruded aluminum cladding as our standard. Our clad extrusions are formed first and then painted. Ensuring that your clad products will retain their color, gloss and beauty for years to come.

Call + 1 902 443 3373 or visit marvincanada.com to find your perfect windows and doors.
