SPEC COPY

Like a warm, dry towel after getting caught in the rain. Or a gulp of freezing-cold ice water after a long walk in the sun. Basically comfort in a bottle. For your skin.

Apply one or two pumps all over the face for a hydrating, reparative, soothing experience. Feels and looks like matcha pudding, acts like high end skincare, (without the old-lady fragrances and overhyped claims). We pride ourself on the ingredients (Aloe Vera is #1!), so take a look at the list below. We think you'll like what you see. Our creamy-but-not-heavy formula and silky texture that dries down to a satin finish makes it perfect for all skin types. When you're ready for your new favorite addition to your skincare ritual, click "Add to cart" and we'll take care of the rest!

### ORIGINAL COPY

#### Verdant Forcefield

**Purpose:** A skin barrier reinforcing moisturizer that hydrates, softens, moisturizes, and protects with well studied vitamins, actives, and extracts.

**Texture:** A mid-weight gel lotion that feels almost elastic or mochi like on the skin. Dries down and sinks into the skin after application.

A vitamin and botanical enriched moisturizer created with a blend of humectants, emollients, and occlusives to plump and protect the skin barrier. Its vibrant green colour comes from a mixture of both water and lipid based green tea extracts, which are rich in polyphenols, fatty acids, and a variety of vitamins and phytoactive compounds. As a mid-weight lotion texture, it is suitable for a variety of skin types.
