---

To Whom It May Concern,

I am taking this opportunity to express my sincere interest in the position of Assistant Principal at your school. I have a total of 19 years of experience in the field of education. I have held the position of classroom teacher and school guidance counselor, and have taken many leadership roles throughout the years. I am confident that I can become a great asset to your school.

My experiences include overseeing a student population of over 750 students. I have worked in the capacity of school counselor and as a harassment, intimidation, and bullying specialist (HIB). I have experience working with parents, teachers, district board supervisors and personnel. I also have experience working with multiple community agencies to help support our students' and their families' needs.

Public education is my passion. I believe that education is essential for every human being and it is my goal to create or help support an environment that nurtures children's emotional, physical, intellectual, and psychological well-being.

Please find my resume attached for review. I am extremely excited about the possibility to work with you!

Sincerely,

*Rosalis Grohs*
