Leviathan, The Matter, Forme and Power of a Common Wealth Ecclesiasticall and Civil, commonly called Leviathan, is a book written by Thomas Hobbes which was published in 1651. It is titled after the biblical Leviathan. The book concerns the structure of society and legitimate government, and is regarded as one of the earliest and most influential examples of social contract theory. The publisher was Andrew Crooke, partner in Andrew Crooke and William Cooke. It is one of the most profoundly influential works of political thought ever written.In the book, which was written during the English Civil War, Thomas Hobbes argues for a social contract and rule by an absolute sovereign. Hobbes wrote that chaos or civil war — situations identified with a state of nature and the famous motto Bellum omnium contra omnes ("the war of all against all") — could only be averted by strong central government. He thus denied any right of rebellion toward the social contract, which would be later amended by John Locke and conserved by Jean-Jacques Rousseau.---«Левиафан, или Материя, форма и власть государства церковного и гражданского» — название сочинения английского философа Т. Гоббса, посвященного проблемам государства.Левиафан — библейское чудовище, изображённое как сила природы, принижающая человека. Гоббс использует этот образ для описания могущественного государства («смертного Бога»).При создании теории возникновения государства Гоббс

- This screenshot is from a download page of an e-book website. Users are able to search for various e-books and download them for free.
- The UX Writing I would change would be the blue hyperlinks.
- These are the download links the user must click to download the e-book.
- However, it is not clear that this would be the case. There is no heading, or call to action that would let the user know what to click to download the e-book.

- The way I would change it would be to create a bolded heading that reads "download links", with a subheading/small body of text that reads "click a link to download e-book".
- This immediately catches the reader's attention by being bolded, and the quick and concise information and call to action allow the user to make a decision faster.
