San Miguel Power's AI Cameras Help Protect Forests, Public

San Miguel Power Association, with headquarters in Nucla and Ridgway, and the Telluride Fire Protection District recently partnered with Pano AI in a pilot project to help identify wildfires before they become catastrophic. This first-of-its-kind pilot program will be tested throughout the upcoming wildfire season to gather insight into this innovative technology. [Learn more.](#)

Empire Electric Announces New Estimator Tool to Expedite Service

Cortez-based Empire Electric Association recently revealed its new construction estimation tool to help streamline estimates as demand for new services in the area expands. This tool promises to improve work processes and lower operation costs that will be passed down to its consumers with faster service and more affordable rates. [Learn more.](#)
