

# YuJa Panorama for Digital Accessibility – Update 20211112 Released to US, CAN, and EU Zones

CANADIAN ZONES EUROPEAN UNION ZONES PANORAMA FOR DIGITAL ACCESSIBILITY UNITED STATES ZONES

We have successfully pushed an update to all instances residing in the United States, Canada and the European Union. This update aims to provide users an increased variety of accessible tools.

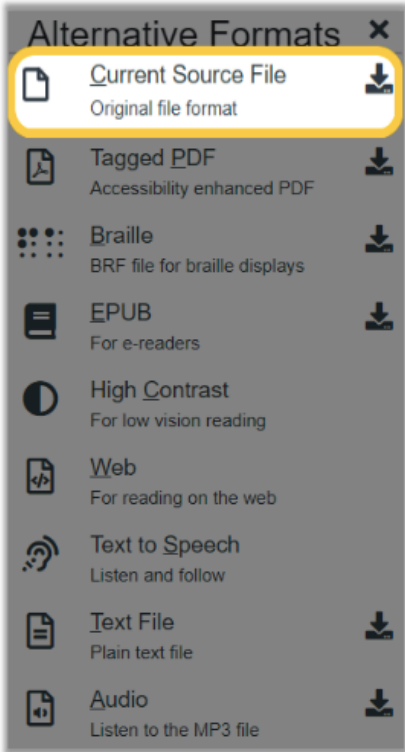

## 1 Ability to Access Alternative Formats for HTML pages within Moodle, Blackboard, and D2L

To mirror the capability offered in Canvas, users now have the ability to access Alternative Formats and view Accessibility Reports for HTML pages in Moodle, Blackboard and D2L.

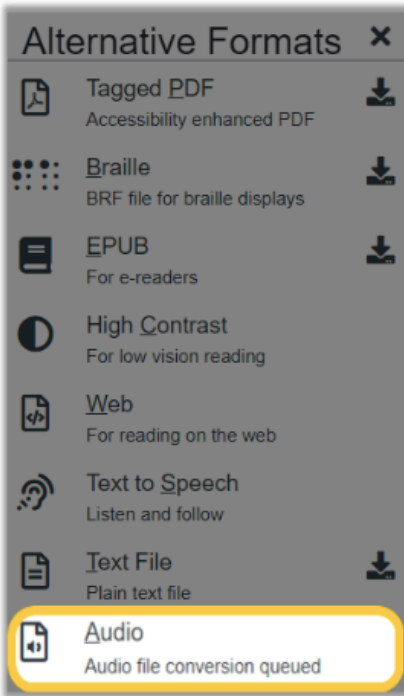

## 2 Ability to Add and View Current Source Files

Users will now be able to add and view the latest version of the original file.

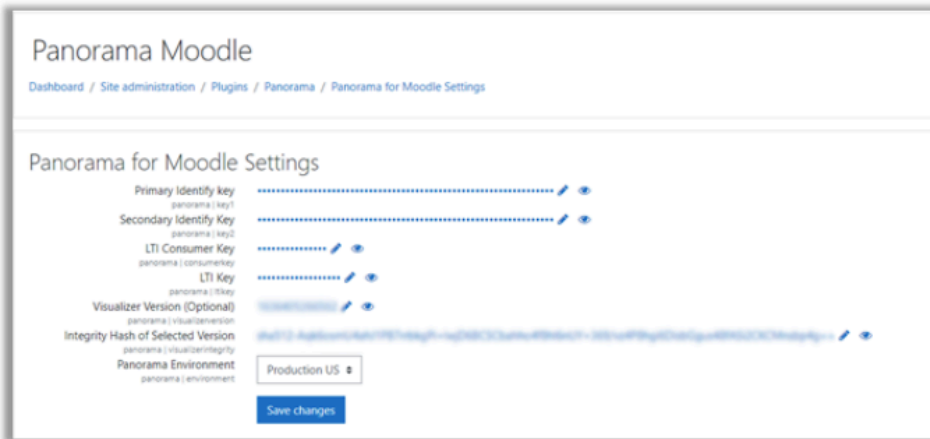

### 3 Up-to-Date Status of Audio File Request

Users will now be able to view the conversion status of Audio Files. Average conversion time is 5-10 minutes.

### 4 Ability to Version Lock Visualizers in Moodle for Additional Security

In Moodle, Admins can enhance visualizer security with version locking. Admins have the option between locking the current version or using the most up-to-date version via the Panorama for Moodle Settings.

### 5 Reduction of Calls to Moodle's LMS

In effort to significantly reduce the number of calls to Moodle's LMS to enhance performance, this update implements an optimal workflow to capture the Moodle file identifiers.
