

YuJa Himalayas for Data Archiving and Compliance - Update RC20211217 Released to US, CAN, and EU Zones

CANADIAN ZONES EUROPEAN UNION ZONES HIMALAYAS

We have successfully pushed an update to all instances residing in the United States, Canada and the European Union. This release focuses on brand new features that will help Administrators easily organize and manage large quantities of data.

1 Himalayas Now Provides the Ability to Track Archive and Restore Jobs via Job Management

We are excited to announce the new Job Management dashboard that allows Administrators to keep track of existing and upcoming jobs. The dashboard allows Administrators to identify a Job's beginning and completion date, type, and its current progress.

Moreover, Administrators will be able to refine their search by using the Job Management's filtering options. In future releases, we intend to provide the ability to undo a restoring and archiving job, view associated files, access advanced filtering capabilities, and much more! To learn more about this feature, please click [here](#).

Job Management

Job Management dashboard allows users to keep track of existing and upcoming jobs occurring in Himalayas

Q Find by title or UUID Status Type Search Clear

Title	Start Date	End Date	Type	Progress
▼ Dr. Thomas's POLA01 Fall Term	2021/12/14 1:36 pm	2021/12/14 1:46 pm	Restored	100%
Details about Job and Overview				
Job Initiated by Mary Thompson				
UUID 123456789				
▼ Dr. Rose's POLA01 Fall Term	2021/12/14 10:58 am	2021/12/14 11:32 am	Archived	100%
▼ Dr. Ahmed's POLA01 Fall Term	2021/12/14 10:56 am	2021/12/14 11:32 am	Archiving	100%

2 Ability to Undo Active Archive Jobs to Video Platform

This update will undo an archive job for files being transferred to the Video Platform. To learn more about this feature, click [here](#).
