

YuJa Himalayas for Data Archiving and Compliance - Update RC20211104 Released to US, CAN, and EU Zones

UNCATEGORIZED

We have successfully pushed an update to all instances residing in the United States, Canada and the European Union. This update aims to provide Admins with enhanced workflows to manage data.

1 My Archive Folder via Media Library Platform

To provide more insight into users' archived content, users can now see all their content that is archived via the My Archive folder, located in their Media Library. Users will be able to view archived files and have the option to restore them.

2 Ability to Bulk Exclude Selected Files

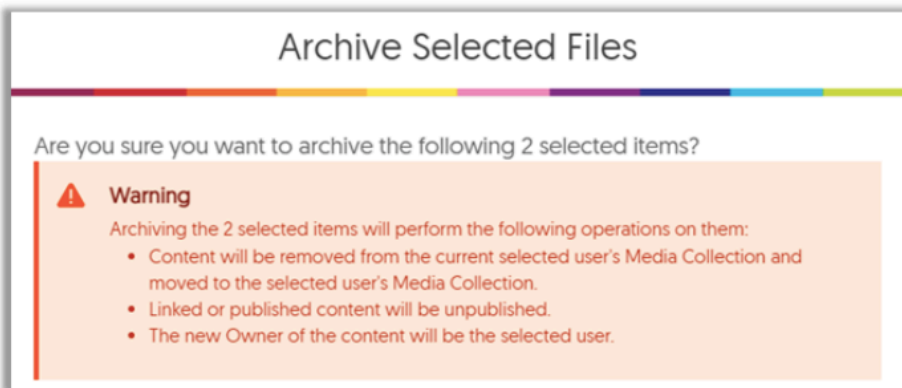

Admins can choose to omit select files from a Data Policy by using the Bulk Exclude function. All excluded content can be located in the Exclusion List.

Select All That Match Policy		Bulk Exclude			
<input type="checkbox"/>	Title	Type	Date Added	Last Viewed	
<input checked="" type="checkbox"/>	Talking-Finance	Video	Oct 12, 2021 09:25:33 AM	Never Viewed	
<input checked="" type="checkbox"/>	The Hidden Force In Global Economics: Sending Money Home Dilip Ratha	Video	Oct 21, 2021 09:04:00 AM	Nov 03, 2021 05:56:11 PM	
<input type="checkbox"/>	Ripple Effects of Environmental Policy_edited	Video	Oct 07, 2021 12:42:48 PM	Never Viewed	

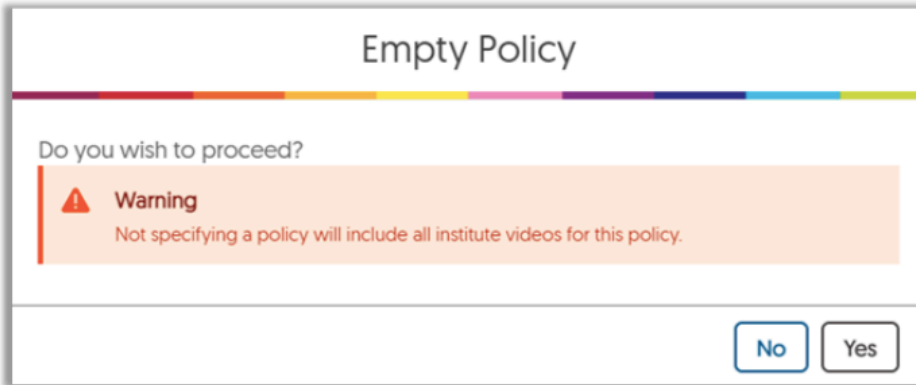

3 Warning Messages Implemented Throughout the Admin Panel's Data Management Tab

In efforts to ensure that accurate content is accurately archived, warning messages have been incorporated at select points to inform Admins of the action they are about to perform and its result.

- A warning message conveying how bulk archiving will transfer files from content owners' file to Himalayas.

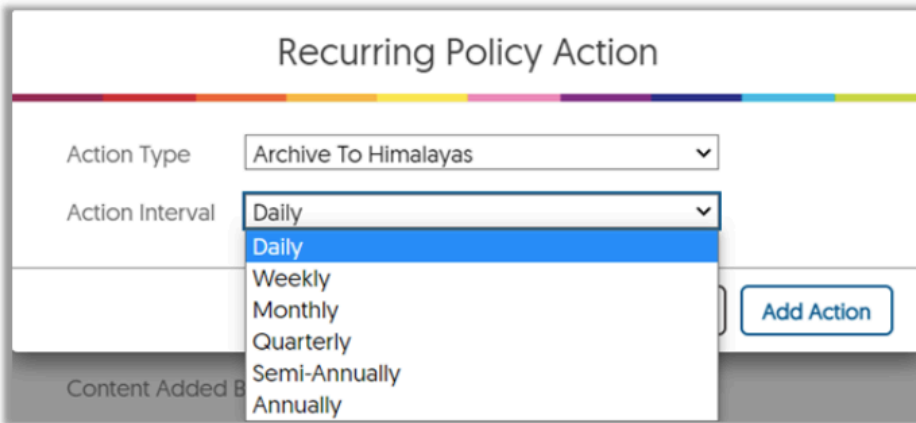

- A warning message conveying that by not entering a policy *all* the files within the institution will be selected.

4 Ability to Create a Recurring Policy Interval Period

Admins can opt to automatically run Data Policies periodically to consistently identify what content should be archived.

5 Condensed Archived Notification Report

To provide a comprehensive record of large archive actions, any archive action that consist of 25 or more files will have a downloadable CSV file available via the Notifications tab (audit log).

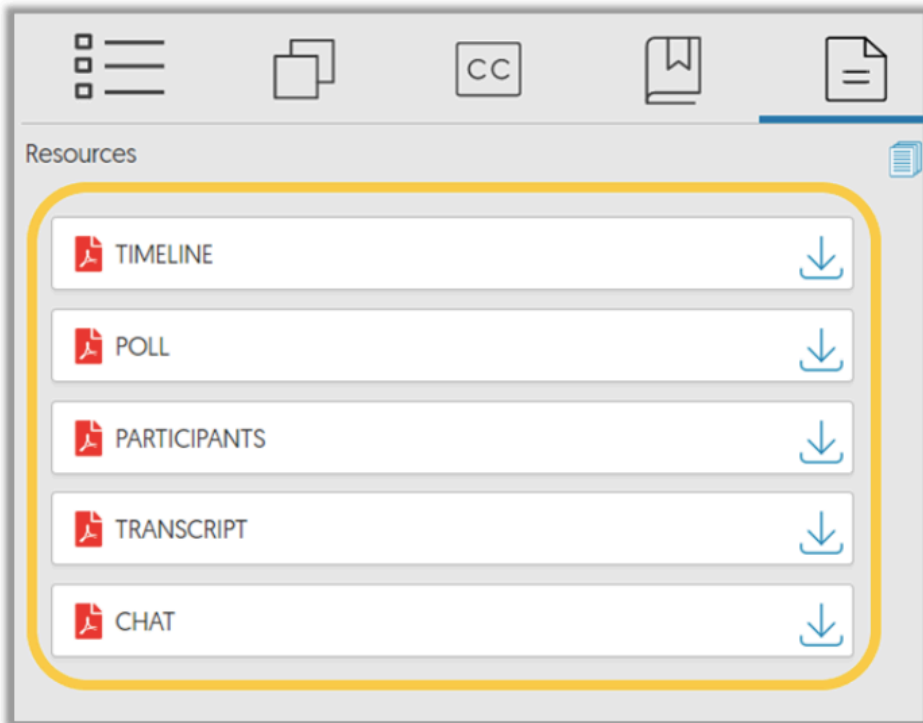

Description	Time
Archive Request by	2021-10-04 11:43:07 EDT
Filter: User Manually Selected Items From Policy Results	2021-10-04 11:43:08 EDT

New Owner of Archive Items:	2021-10-04 11:43:09 EDT
All requested items have been archived	2021-10-04 11:43:14 EDT
Total Storage Archived : 10.55 MB	2021-10-04 11:43:14 EDT
View Report	2021-10-04 11:43:17 EDT

6 Multi-Stream Viewing of Zoom Meetings

This update aims to mirror the real-time viewing experience of Zoom Meetings by showcasing the video feed and screen capture in a side-by-side view.

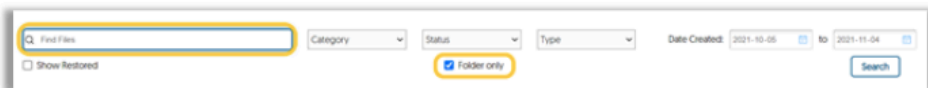

7 Downloading Zoom Metadata

Users can download associated metadata files associated with Zoom recordings, including transcripts and comments.

8 Ability to Confine the Search Parameters to a Specific Folder

This feature provides users with the ability to search for files within an archived folder, allowing for quicker searches and prevents users from having to navigate through multitudes of files.

9 Make Zoom Meeting Titles Unique With the Addition of a Timestamp

When enabled, all imported Zoom Meetings will have their title amended to include the date of the recording. This change will help users distinguish between their recurring meetings.
