→ APEX Membership

A long-life, life-long membership

Fountain Life's APEX Membership is a year-round program combining unparalleled diagnostics, longevity medicine and therapeutics, allowing you to achieve peak performance and maximize your healthspan.

APEX determines whether you currently have or **are at risk for developing** of any of the leading causes of a shortened healthspan (cardiovascular disease, cancer, metabolic disease, and neurocognitive disease). If we discover any abnormalities, your functional medicine trained team will employ a systems-based approach to uncover contributing factors and provide an ongoing treatment plan.

With Fountain Life Centers opening around the world, our APEX Membership plan is global. Our full suite of services and medical care will be available exclusively to Members, no matter where your career or travels take you.

Your Year-Round Follow-Up & Health Care Team: A long-life, life-long membership is not a 'one-and-done'. This year-round membership program provides you unparalleled medical oversight from a fully-integrated Health Care Team. They will follow up with you on a regular basis to address any new findings and continually optimize your healthspan.

→ Your APEX Membership promise:

The APEX Membership is designed to deliver you unprecedented healthcare in three key areas:

- **Diagnostics:** Our advanced diagnostics detect the major causes of illness and early mortality: including cancers, aneurysms and other cardio-vascular diseases, metabolic disease such as prediabetes, and neurocognitive diseases like dementia. These diagnostics are centered around your annual 150 Gb upload, providing a detailed baseline for us to evaluate changes on a year-to-year basis. Additionally, your diagnostic tests will uncover the root causes of these diseases, including factors like mitochondrial dysfunction, toxin exposure and nutrient deficiencies.
- **Performance/Health Optimization and Disease Reversal:** As necessary, your Longevity Health Care Team will recommend additional testing to continuously iterate on the supplements, medications, and programs intended to optimize your vitality and performance. If any disease is present, your plan will be focused on disease reversal rather than simply management.
- **Therapeutics:** Your Health Care Team led by your longevity physician will create a therapeutic roadmap for you that will address your goals and the results of your diagnostic upload.

Imaging:

- ✓ Full Body and Brain MRI with AI
- ✓ Coronary CT Angiography with AI
- ✓ Bone Density & Body Composition Scan
- ✓ Electrocardiogram
- ✓ Low Dose Lung CT with AI
- ✓ Retinal Scan with AI Read
- ✓ AI-Powered Skin Cancer Screen

Function and Performance:

- ✓ Neurocognitive Function
- ✓ Blood Pressure
- ✓ Balance Tracker
- ✓ Sleep Apnea Test
- ✓ Pulse Wave Velocity, Arterial Function
- ✓ Heart Rate Variability TestingMuscle
- ✓ Function Test
- ✓ Olfactory Testing

Disease Drivers:

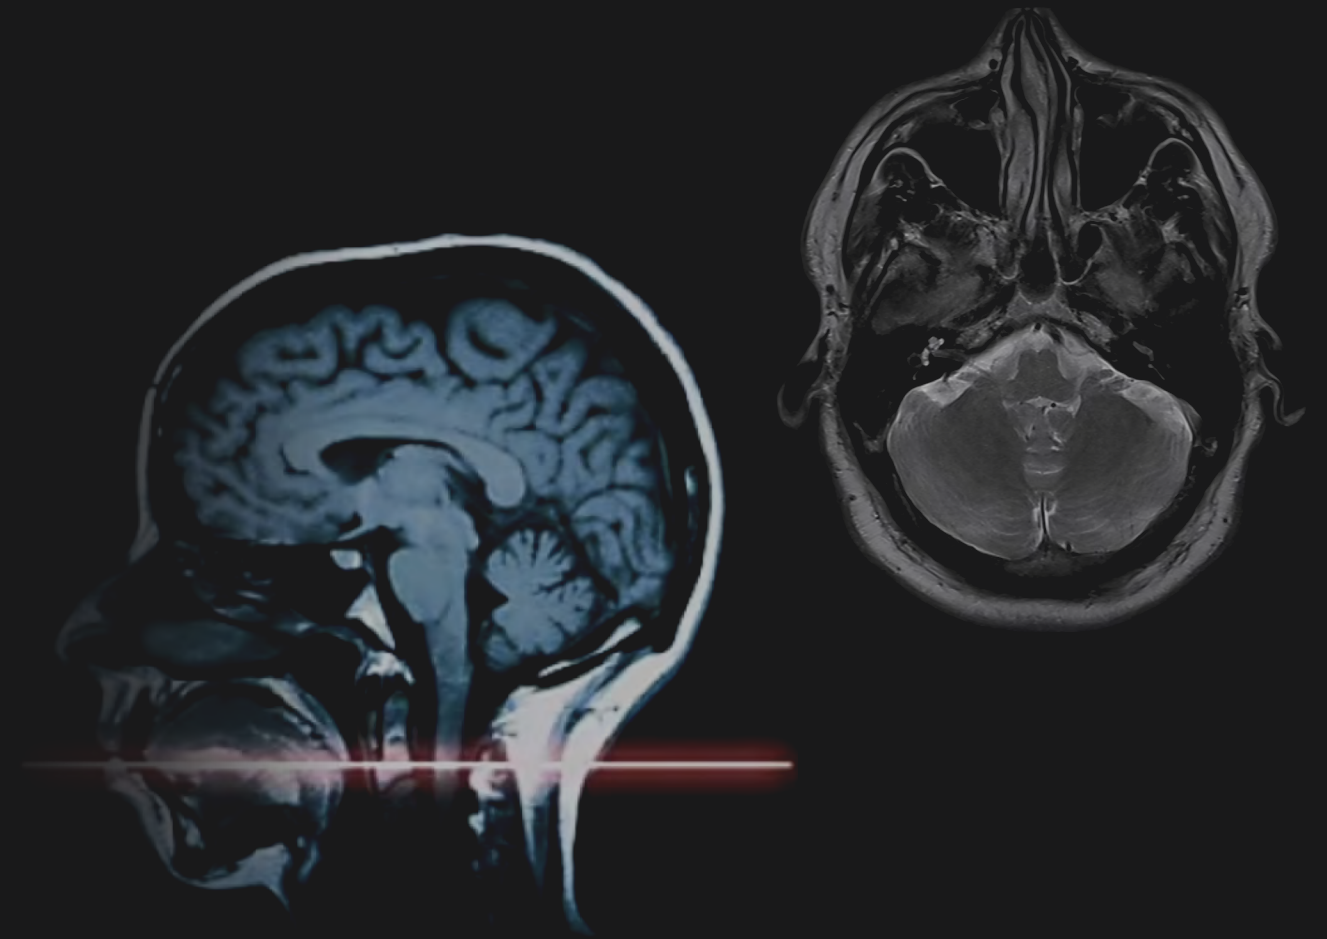

- ✓ Early Cancer Detection Blood Test
- ✓ Polygenic Risk Score
- ✓ Up Blood Biomarker Panel
- ✓ Gut Health and Microbiome Oral Pathogens
- ✓ Environmental Toxins Assessment
- ✓ Oral Microbiome Test
- ✓ Whole Genome Sequencing
- ✓ Comprehensive Nutritional Needs Assessment
- ✓ AI-Powered CV Risk Blood Test
- ✓ Epigenetic Biological Age
- ✓ Systems Biology Analysis

Your Year-Round Follow-Up & Health Team: Fountain Life's APEX Membership is a year-round program combining unparalleled diagnostics, longevity medicine and therapeutics; allowing you to achieve peak performance and maximize your healthspan.

→ APEX

Your dedicated Health Care Team includes:

- Longevity Physician (trained in Functional Medicine)
- Nurse Practitioner
- Health Coach
- Member Care Coordinator

→ Digital @Home Monitoring:

APEX delivers you a Personal Data Integration Platform and Personalized App with access to your test results, medical records and longevity and optimization roadmap. You also have access to a comprehensive suite of wearables (e.g. Oura Ring, Apple Watch, CGM, remote blood pressure monitor, Inbody H2ON Smart Scale, Kardia EKG) that integrate with your Personal Data Integration Platform and Health Care Team to provide ongoing, year-round support.

→ Who is the APEX Membership Designed to Serve?

It is for those who desire access to the most advanced comprehensive testing and Longevity Physician trained to interpret your results and implement a roadmap based on your findings.

Beyond catching diseases early, APEX is also designed for those who seek access to the knowledge, coaching and therapeutics able to extend their vitality and healthspan. APEX is not a one-and-done offering, it is intended to be a life-long, long-life membership. Your first APEX upload visit helps you obtain a baseline and eliminate any major disease findings. Subsequent annual visits and ongoing testing are focused on continued surveillance and optimization. Your body can change daily, your Apex membership ensures that your health is never in doubt.

For our valued APEX Members, we promise to:

Be the trusted fiduciary for your health: In doing so, we promise to prioritize your health and longevity goals; being predictive, preventative and personalized in our approach and always acting in your best interests. In making medical, nutritional and lifestyle recommendations, we will maintain our primary objective of extending your healthspan and lifespan.

Always utilize the best early detection technology: With methods including advanced blood tests, MRIs, CCTA scans and more, we can detect diseases including cancer, heart disease and dementia earlier than ever before.

Provide the most advanced treatment plans at the earliest phases of illness: We recognize that preventative diagnostics can be an emotional journey. Our team promises to support you should any disease be found, ensuring that you feel safe and empowered. Our experienced Medical Team will chart out a measurable and data-driven treatment plan using the most advanced technologies available.

Be proactive so you'll never have to think about booking an appointment: Your Fountain Life Health Care Coordinator, Nurse, Health Coach, and Longevity Physician will proactively reach out to review your results and ensure any medications and supplement requirements are up-to-date. Our team is available to you via phone, text, or teleconferencing as needed to support you on your health journey.

Make 100 the new 60: Fountain Life's team of longevity scientists and physicians constantly review global scientific and medical research to identify compelling treatments for our members. Our medical protocols help our APEX members maintain cognitive, physical and aesthetic youthfulness throughout life.

Provide global health access: As an APEX member, every Fountain Life Center around the world is available to you. You are welcome to our full suite of services and medical care at any center and will be treated with the highest level of hospitality and service. Your records are accessible anywhere in the world, giving you an unprecedented sense of security and personalized medical coverage as you travel worldwide.

→ Snapshot

A life-saving, real-time upload

*Diagnostics Snapshot is Fountain Life's entry-level service for those who want to determine whether they currently have, or **are at risk for developing**, any of the leading causes of a shortened health and lifespan. These tests are specifically focused on cardiac, metabolic, cancer and neurocognitive functions.*

Snapshot is a curated set of advanced diagnostic tests, lasting approximately 5 hours, at one of our Fountain Life Centers. The resulting diagnostic "upload" will evaluate your health status at a single point in time.

A Fountain Physician provides a review of your results. It is up to your primary care provider to coordinate follow-up treatments.

What's Included: Snapshot is a single-visit offering designed to detect the following major causes of illness and early mortality:

- Cancers
- Aneurysms
- Cardio-vascular disease
- Metabolic disease (e.g. diabetes)
- Early signs of dementia
- Liver disease
- Kidney disease

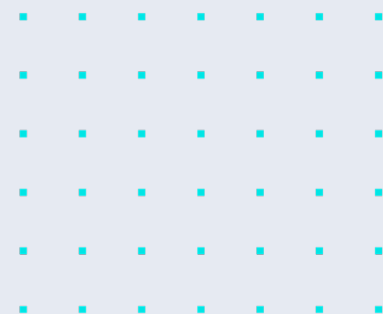

When you visit Fountain Life for a Diagnostic Snapshot, you will undergo the following comprehensive series of tests:

Imaging:

- ✓ Full Body and Brain MRI with AI
- ✓ Coronary CT Angiography with AI
- ✓ Bone Density & Body Composition Scan
- ✓ Electrocardiogram
- ✓ Low Dose Lung CT with AI
- * Retinal Scan with AI Read
- * AI-Powered Skin Cancer Screen

Function and Performance:

- ✓ Neurocognitive Function
- ✓ Blood Pressure
- ✓ Balance Tracker
- ✓ Grip Strength Test
- * Sleep Apnea Test
- * Pulse Wave Velocity, Arterial Function
- * Heart Rate Variability Testing
- * Muscle Function Test
- * Olfactory Testing

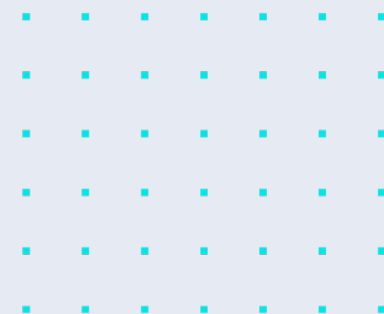

Disease Drivers:

- ✓ Early Cancer Detection Blood Test
- ✓ Polygenic Risk Score & SNP Test
- * Up Blood Biomarker Panel
- * Gut Health and Microbiome Oral Pathogens
- * Environmental Toxins Assessment
- * Oral Microbiome Test
- * Whole Genome Sequencing
- * Comprehensive Nutritional Needs Assessment
- * AI-Powered CV Risk Blood Test
- * Epigenetic Biological Age
- * Systems Biology Analysis

* Available in APEX Membership

Note: SNAP DOES NOT include recommendations or follow up visits with our team of physicians or ongoing treatment.

Who is the Diagnostic Snapshot program designed to serve?

Snapshot is for those who have a physician that can evaluate your testing results and implement an optimization plan based on your findings. This plan is for someone who is curious about their immediate health status and wants to determine their risk of illnesses impacting their cardiac, metabolic, or neurocognitive function.

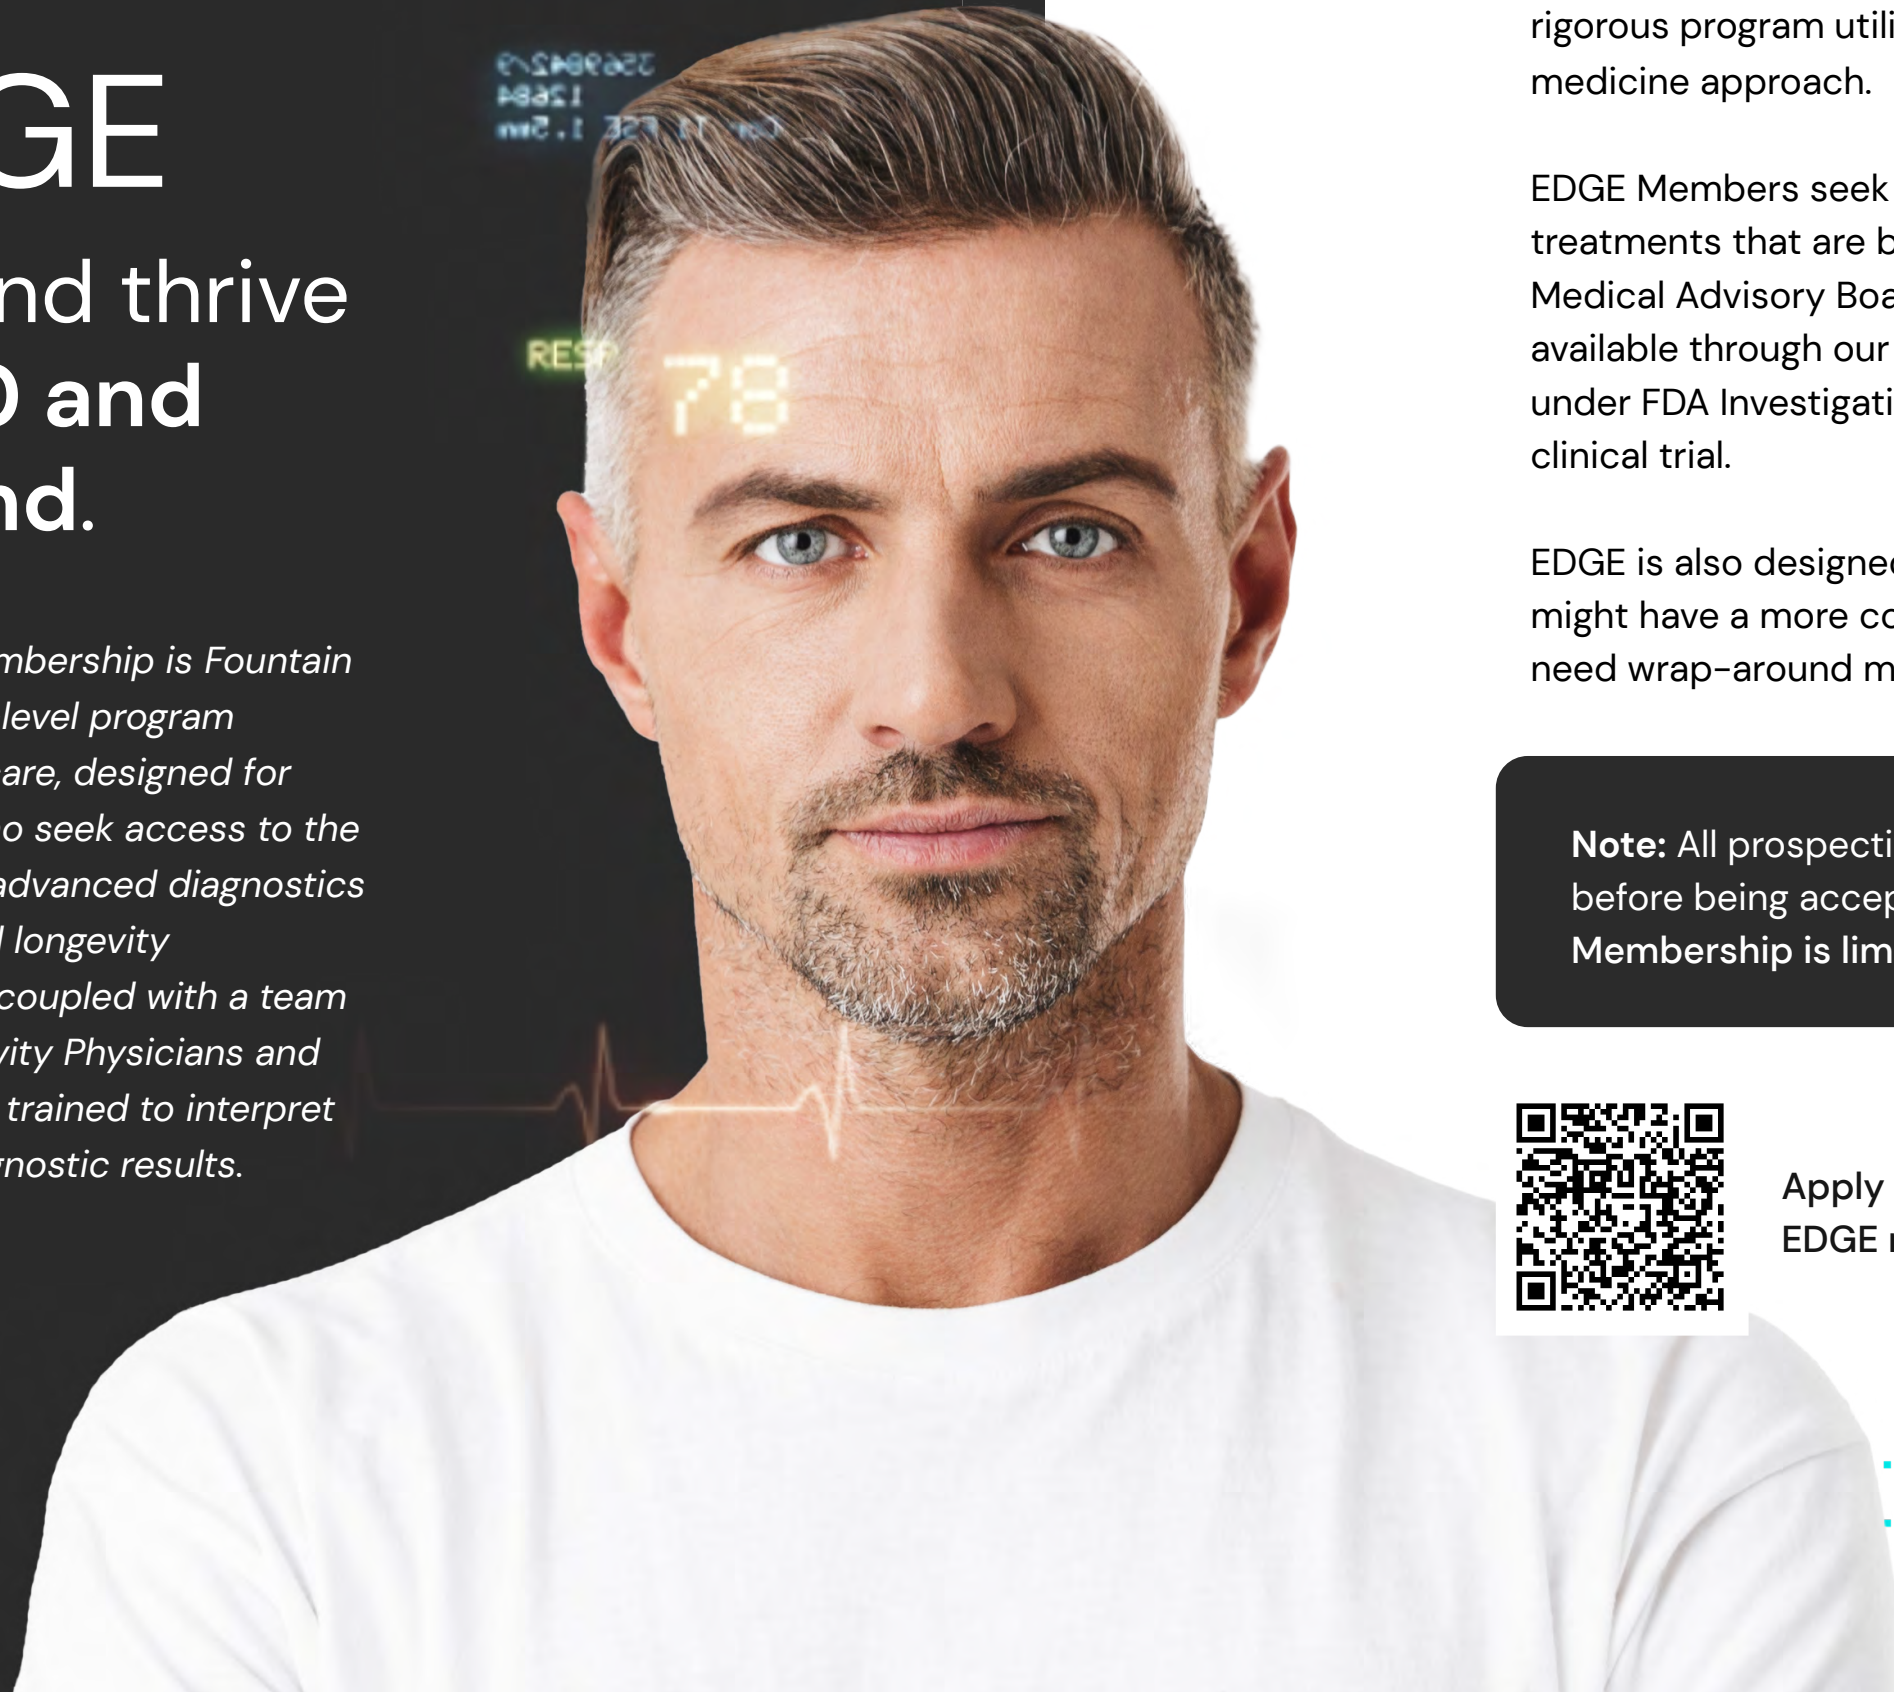

Snapshot is designed for people who may want to optimize their health with us in the future, but are not ready for a “long-life, life-long” membership program.

→ EDGE

Live and thrive to 100 and beyond.

The EDGE Membership is Fountain Life's highest-level program and medical care, designed for individuals who seek access to the world's most advanced diagnostics and advanced longevity therapeutics, coupled with a team of elite Longevity Physicians and Medical Team trained to interpret the latest diagnostic results.

EDGE is designed to help our members achieve and maintain maximum health, energy and vitality, based on a rigorous program utilizing a systems biology and functional medicine approach.

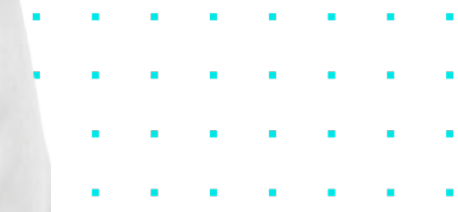

EDGE Members seek access to the most cutting-edge treatments that are being discovered and vetted by our Medical Advisory Board. Such "EDGE offerings" are made available through our Centers or through our partners under FDA Investigational New Drug protocols, or under a clinical trial.

EDGE is also designed to support those individuals who might have a more complicated medical condition who need wrap-around medical care and support.

Note: All prospective EDGE Members are interviewed before being accepted into the Program. EDGE Membership is limited to 100 Members per center.

→ Credo

We the Founders and leadership of Fountain Life seek to build a global company delivering **the most advanced diagnostics and vetted therapeutics** to those who seek a longer, healthier and more vital life.

We believe that humanity is in the midst of a healthspan revolution. Converging exponential technologies such as artificial intelligence, genomics, CRISPR, gene therapy, cellular medicine and sensors are allowing us to understand why we age and perhaps how to slow, stop and even reverse aging.

We concur with experts who predict that breakthroughs before the end of this decade **will enable us to add decades onto the human healthspan.**

As such, our mission at Fountain Life is to maximize the health and vitality of our members using advanced diagnostics to catch disease at the earliest signs, enabling members to stay healthy enough to intercept the longevity breakthroughs racing towards us.

We seek to extend member healthspan by using a foundation of “functional medicine based protocols” plus an annual 150 Gb “Upload” of imaging, genetic and blood-related diagnostics.

Our goal is to reliably predict future diseases and to detect any such disease at the earliest moment possible, thereby stopping and ultimately reversing its progression, returning our members to peak performance.

Fountain Life and its network of physicians and scientists are constantly scanning the world searching for low-risk, high-reward therapeutic treatments. Once vetted, those treatments with the greatest promise are made available to all Members through our Centers. Fountain Life requires that treatments delivered to its Members be either FDA approved or delivered under an approved investigational protocol.

Fountain Life believes that there is no substitution for a brilliant and thoughtful medical team delivering healthcare services. As such, we have developed an innovative care model, utilizing a vertically integrated, 6-person utilizing an integration Health Care Team. Each Fountain Life Member is supported by a Longevity Physician, Nurse, Health Coach, Nutritionist, and Care Coordinator. These teams are trained to the highest standards at Fountain University in accordance with A4M, the Institute for Functional Medicine (IFM) and other cutting-EDGE partnerships.

Additionally, Fountain Life is making use of the most advanced artificial intelligence technologies in order to enable a smooth and seamless Member experience, while at the same time analyzing vast data-sets to glean personalized insights delivering lifesaving outcomes.

**In Health,
Fountain Life's Founders & Leadership**

→ Experience

Fountain Life Centers offer state-of-the-art technology within a luxurious atmosphere. We pride ourselves in creating a spa-like Members' area where you can relax during your time with us. Our friendly staff is available throughout your visit to make you as comfortable as possible and to provide you with exemplary service.

Lake Nona Center

→ The Chris Botting story

*"It did save my life...
and I am **forever grateful.**"*

Chris Botting, a restaurateur, husband and father in his early 50's thought he was perfectly healthy — until he received the gift of preventative testing at Fountain Life. Though no signs or symptoms were present, Botting discovered he had early-stage kidney cancer that was weeks away from spreading to his lymph nodes.

By detecting the cancer cells early, Botting's Fountain Life Physicians could intervene quickly and recommend surgical treatment. Now, he's in full remission and his family and friends have the greatest gift of all: peace of mind about his long-term health.
