

BrainTech Helps Epicode Create Visibility and Reduce Risk

Epicode's Needs

Epicode is a leading Amazon aggregation company. They work on a system of mergers and acquisitions but also need to keep close tabs on their supply chain transactions to ensure that their subsidiaries are performing according to their established SLAs.

BrainTech's Solutions

To help Epicode manage their supply chain and mitigate risk, BrainTech implemented BrainComp for Enterprise-level data analysis. Epicode was able to leverage BrainComp to organize thousands of documents and create interactive dashboards.
