WELCOME

We're celebrating our 30th anniversary and it's all because of you, our loyal Tarascon customers! 30 years is a long time (360 months, 1,564 weeks, 10,957 days to be exact) and we are honored that you continue to trust us year over year to bring you the most current drug information available.

We've said this many times, but we pride ourselves on listening to customer feedback and incorporating suggestions for improvement into the Tarascon series. This year has been no exception; in fact, this has been a year of continuous improvement and change.

Earlier in the year we updated and overhauled our Pharmacopoeia mobile application. It has always been a comprehensive resource, but we knew there were things we could do to improve ease of use. The same comprehensive drug information, tables, and calculators are still included, but we now also have a fully integrated drug interaction tool, improved search functionality, and the ability to update the app in the background so as not to bother you while you're using it.

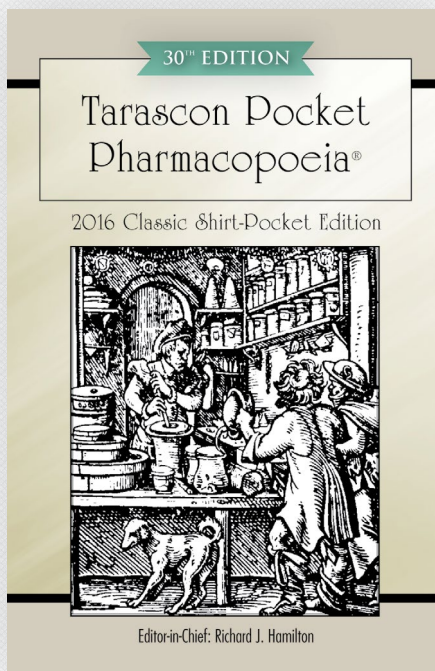

We didn't just make a major change to our mobile editions; we also made one to our print editions as well. This year we added a **Large Print** edition of the *Classic Tarascon Pharmacopoeia*. Larger print has been something highly requested over the years and we're excited to bring you this new version, which includes the same great content, but with larger font. For those who liked the smaller size of the original edition, don't worry! We're still printing those as well.

Your feedback, suggestions, and support helped us reach this impressive milestone and we want to say THANK YOU. Here's to 30 more years!

Sincerely,

Nancy Anastasi Duffy
