# 4 Reasons Why I use Locusview as a SaaS Professional

Written By

Peter Curry

EFFICIENCY

- Eliminate paper construction packages and reduce project closing time by 70%
- Identify errors and implement corrections in real-time
- Direct integration with the system of record to eliminate manual data entry

Written By

Peter Cury

SCALABILITY

- A user-friendly interface designed specifically for construction workers enables rapid adoption
- Construction crews can collect data as part of their daily tasks without impact on schedule or process, resulting in ~20% time savings and ~50% cost savings
- Standardizes data collection for company and contract crews
