

ABOUT 50-80% OF ALL LIFE ON EARTH LIVES UNDER THE SEA. IT'S NOT CALLED THE "BLUE PLANET" FOR NOTHING!

THE OCEAN IS A VAST, WILD AND WONDERFUL WORLD THAT EBBS AND FLOWS AND TEEMS WITH LIFE. IT CONNECTS US ALL.

During World Oceans Day, held every year on June 8, people all over the world celebrate the ocean and the important part it plays in the web of life, including our own lives. World Oceans Day is recognized by the United Nations and is a call to action to respect and protect the ocean.

Stay tuned to this page for details on upcoming World Ocean Day events in Newfoundland and Labrador being organized in collaboration with our partners for June 5-8th!
