

Stay the NSPS Ja Course with Sage, now things are really getting serious...

In the first leg, you swam through a sea of lingo to understand the rule and identify compliance needs. In the second leg, you pedaled along, identifying the instrumentation and engineering needed to gather data.

Now you're starting in on the final year-long marathon that ends with turning in the FMP at the finish line.

Your NSPS Ja Marathon Course Map—Start Tracking Your Progress Today!

We're here to keep your spirit strong when you need it most.

That's why we're sending you this map to help you stay on track. Keep it somewhere you'll see it often—we'll send you reminders to monitor your progress. We're in this together!

NOVEMBER 2014 START
Be sure to order your instrumentation now to begin collecting data and deliver on time compliance.

MARCH 6.2 mi
Drawings for your FMP—we'll be sending you a list of drawings to be included.

JANUARY 3.1 mi
Flare header mapping—have you identified all connections to the flare?

MAY 13.1 mi
Minimization assessment—have you documented the process? We have a tool! Watch your email, we'll be sending you something handy at this time.

SEPTEMBER 18.6 mi
Final FMP QA/QC—Are you sure you're ready to turn your FMP into EPA? Put another set of eyes on it.

JULY 15.5 mi
Baselines—Do you have alternative baseline scenarios? The more data, the better!

NOVEMBER 2015 FINISH
A congratulatory medal will be awaiting you at the finish line, *see you there!*

Need some personal training? Contact our coaches now to ensure a strong finish:

Troy Boley—770-883-7082
Herman Holm—678-492-7426

 **Please don't recycle!**
Post somewhere visible so you can follow the track all year long.
