DEFINING CAREER MOMENT

SECRET IDENTITY REVEALED!

Roxy took a near non-existent environmental program and brought it into full compliance in just 3 years' time, earning her a reputation for swift work in high-pressure situations. Her ability to **certify companies in ISO 14001** and lead 3rd party audits further lend to her hustle, allowing her to push through compliance road blocks in record time.

ONE SUPERHERO'S JOURNEY

FROM MILD-MANNERED FOREMAN TO FACILITY MASTERMIND

Roxy understands multiple levels of management within a facility. Beginning her career as an Environmental Engineer, **Roxy zipped through various roles including Technical Process Engineer, Shift Foreman, and Production Manager** before making her way to Sage. Roxy finds sensible, practical approaches in solving EHS challenges at facilities while keeping their processes and people in mind.
