

SAGE KNOWS YOUR NEEDS

WE'VE BEEN THERE

Our experience serving as clients, regulators, and service providers in a wide range of industries concerned with Wastewater & Water Resource compliance uniquely positions us to meet your needs.

WE'VE BEEN ON THE GROUND FLOOR

We've been in wastewater treatment plants as plant engineers and consulting specialists focused on delivering wastewater & water resource solutions and bringing practical experience to troubleshooting, system design, and facility upgrades.

WE'VE BEEN IN THE FRONT OFFICE We've been the managers responsible for budget and compliance. We understand the pressure.

WE'VE BEEN BEHIND THE REGULATOR'S DESK We understand the limits on the regulator... what can be negotiated and what can't.

OUR CLIENT FOCUS

Our comprehensive experience and base of services makes us adaptable to meet the needs of a broad range of industrial clients. We service domestic and international clients in the following sectors:

- Oil & Gas
- Pulp & Paper
- Refining
- Food & Beverage
- Iron & Steel
- Mining
- Petrochemical
- Plating
- Chemical
- Technology

WASTEWATER & WATER RESOURCES

SAGE

ENVIRONMENTAL CONSULTING

Friendly Service, No Surprises!®

Sage supports operational flexibility within strict regulatory requirements to meet your Wastewater and Water Resources needs.

Our Wastewater and Water Resources group combines years of customer & regulator experience to understand your needs and create team-based solutions. And now with an integrated Aquatic Toxicity Lab that provides effluent testing, your one-stop shop for Water and Wastewater solutions just got better.

sageenvironmental.com

ABOUT SAGE & SAGESAFETY

Founded in 1998, Sage Environmental Consulting, LP provides a full range of environmental services to meet your permitting and compliance needs. We serve clients in upstream and midstream oil & gas, petrochemical, chemical, pulp & paper, energy, iron & steel, and mining sectors, to name a few. If you are subject to regulation, we have an expert for you.

SageSafety, an extension of our environmental consultancy, provides the full-spectrum of safety services to our clients. Like Sage, SageSafety has an expert for all your safety needs.

SAFETY SPECIALISTS Our consultants are experienced environmental health & safety professionals with backgrounds in manufacturing, construction, building systems, and regulatory compliance. We understand your concerns: compliance, implementation, and value versus cost.

DEGREED AND/OR PROFESSIONAL ENGINEERS We provide you with qualified and competent safety consultants with professional engineering degrees and/or certifications.

TRAINING AND REGULATORY SUPPORT

- *Water Quality Modeling—ToxChem*
- *Training*
 - *Wastewater Treatment Operational Training—General and Process Specific*
 - *Development and Training on Standard Operating Procedures (SOP)*

SAGE'S WW & WATER TEAM

SAGE'S WASTEWATER & WATER RESOURCES GROUP TEAM LEADERS

D'ANN WILKINS provides 15+ years of experience in microbiology, wastewater, and whole effluent toxicity projects, with extensive experience in the management of toxicity reduction evaluation (TRE) studies. She has managed numerous TRE studies involving municipal facilities and industries, with a primary focus on processes within power plants, electrodialysis water treatment plants, and refineries. Furthermore, Ms. Wilkins has been nationally recognized for her efforts in advancing assessment of compliance with TRE testing regulations.

DAVE GILLES, P.E. brings 20 years of experience in process and detail engineering design, project management, startup, and permitting of industrial wastewater treatment facilities and environmental site remediation systems. With process expertise in iron and steel making specialties, petrochemical refinery operations, and numerous other CPI manufacturing facilities related to wastewater characterization and treatment, Dave brings an extensive knowledge base well-suited to meet a variety of client needs.

CURTIS MILES delivers over 25 years of experience in environmental management and engineering, with expertise in environmental management, environmental negotiation, RCRA, Title V, PSD, NSR, NPDES, air emission inventory, greenhouse gases, environmental assessments, environmental audits, remediation, EPCRA, TRI, stormwater, USTs, groundwater, and landfills.

DR. JOHN JOYCE is a senior environmental consultant with over 28 years of environmental & chemical process engineering expertise, including work in the U.S., Canada, Mexico, Europe, and Asia. He is a Ph.D. chemical engineer and Registered Professional Engineer with air & water pollution control experience in pulp and paper mills, wood and building products, power plants, chemical refining, and mining. He is recognized for his expertise relating to boilers systems, combustion engineering, thermodynamics, and downstream air pollution control.

SAGE'S AQUATIC TOXICITY LAB

YOUR ONE-STOP SHOP JUST EXPANDED...

We recently acquired a Whole Effluent Toxicity (WET) lab facility providing effluent testing for your wastewater & water resources needs. Our aquatic toxicity lab services provide continuity between engineering, operations, and regulatory management for a variety of industries:

- | | |
|------------------|-------------------|
| • Refineries | • Food Processing |
| • O&G | • Energy |
| • Municipalities | • Pulp & Paper |
| • Power Plants | • Petrochemical |

YOUR ONE-STOP-SHOP JUST GOT BETTER!

Integrated WET testing helps reduce margins of error, ensure sample preservation, reduce sample travel time, and increase communication. We offer:

- *Toxicity Testing (WET)*
- *Toxicity Reduction Evaluations (TRE)*
- *Toxicity Identification Evaluations (TIE)*
- *Bioassessments*
- *Site Specific Studies*
- *BWON, QQQ*
- *Toxchem Training*
