**GIANT FOR A DAY
DOUBLE IPA**

In beer years, a double IPA is ancient. Older, wiser, and, dare we say, better, Giant for a Day Double IPA dips into the rosy depths of nostalgia to create a familiar, friendly beast of a beer— one to sip on while making tall tales even taller. Drawing from the magnificence of the mighty redwoods, which grow at a slow and stately pace but are constantly in upward motion, GFAD taps into the roots of craft brewing while launching us forward.
